- PostgreSQL

## SOFT SKILLS

- Time Management
- Leadership
- Oral Communication
- Adaptability
- Creative Thinking

## LANGUAGES

**English:** Proficient

**Spanish:** Native

## PROFESSIONAL EXPERIENCE

### Front-End Developer at Henry

"PERN Stack E-commerce" | Dec 2021 - present

- Currently designing and developing a PERN stack e-commerce within a team of seven developers. I am in charge of the client side structure and styles.
- I am also in charge of making our website 100% responsive, meaning it has a mobile view for phones and tablets.
- I use CSS styled components along with grid, flex box, key frames and media queries in order to achieve a mobile view. I intentionally used React Hooks for better performance.

### Full Stack Developer at Henry

"Foods App" | Nov - Dec 2021

- Designed and developed a minimalist single web application using Spoonacular Database API.
- The app consists of a landing page, a home page where each recipe is rendered and a section where the user can create his/her own recipe.
- The user can also filter each recipe by diet, and sort them alphabetically and by rating. A search bar is also included.

### Full Stack Developer at Henry

"Videogames App" | Sep - Nov 2021

- Designed and developed a single web application using RAWG Video Games Database API.
- The app consists of a landing page, a home page where each video game is rendered and a section where the user can create his/her own game.
- The user can also filter each game by genre and origin, and sort them alphabetically and by rating. A search bar is also included
